The Weaving Magic

Pashmina shawls are weaved with extreme care and finesse by artisans with years and decades of experience and expertise.

Every spring, the mountain breeds of goat (Capra Hircus) shed their winter coat that approximately weighs 120gms per goat.

These are collected and the magic woven from them!

It takes hours/days/weeks to weave, design and fringe each stole shawl, scarf or wrap. The typical man hours for weaving a pure Pashmina shawl is 180 hours!

Following are the typical steps involved in the making of pure Pashmina shawls:

- ☒ **Collection of Raw Material**
- ☒ **The Weaving**
- ☒ **Washing**
